

Accounting

TICKET#	SUMMARY
1655	Users cannot create accounting records without the permission to modify existing ones.
1953	Transaction based report cannot be opened. An exception message is shown.

Crew & Guest Database

TICKET#	SUMMARY
1892	Exception on "Addresses" tab when a referenced country name is changed or deleted.
2069	Please extend the IBAN field.
2102	Filenames and descriptions containing single quotes cannot be displayed.

Drills

TICKET#	SUMMARY
1965	In "last exercised" day and month are switched.

Engine Room Log

TICKET#	SUMMARY
1232	Implement separate permission to lock and unlock log days.
2065	Entrypoints can show checkboxes even if the entrypoint is from type number or floating point. This problem only occurs for entry points on page 2 or higher.

General

TICKET#	SUMMARY
467	Rearrangement of menu structure within IDEA.NET.
1645	Show a notification shortly before a trial module expires.
2067	New IDEA.NET design (color, icons, dashboard).
2082	Remember filter settings for each user profile.

Installer

TICKET#	SUMMARY
2125	The installation center does not recognize an activated IIS in Windows 10.

Maintenance

TICKET#	SUMMARY
1166	It should be possible to change the permissions in a way that a person can add an history entry, but is not able to delete history entries.
1815	Hourcounters log does not show the current month by default.
2004	When you create a new periodic task you can add documents to the task. If you don't add any documents and open the new task in the maintenance task page it will show all documents of the corresponding group in the "related documents" tab.

Reminder

TICKET#	SUMMARY
1188	The "Overdue unplanned tasks (department only)" and safety document related reminders are always empty.
2043	Add a reminder for each purchase order category (except "delivered and completed") showing the related orders. Change the reminder for due orders: include all categories except "delivered and completed" in filter criteria.
2068	Sometimes the reminders aren't populated properly (timing issue).

Reporting

TICKET#	SUMMARY
1043	Cannot print or export "Maintenance Tasks" report.
1198	If you set the filter to deck department, the report will still show component history from other departments.
1380	Adding a specific word into the description and using it for the description filter the outcome are several tasks not containing this word.
1657	The drill list overview shows the comments/notes field instead of the description field.

Stock Control

TICKET#	SUMMARY
604	Add the option to print out and manage barcode labels.
1029	In case the number of delivered items is decreased the sum still shows the complete amount (as all items would be delivered).
1446	Add an option to print labels directly from the PO.
1590	Workorder reports/printouts show the item description twice.
1630	Add column for manufacturer to inventory list.
1692	Please change the reports so they use the header and footer which can be set up in the system settings.
1793	Only main storage and quantity sum are displayed in the item list report but the fields are named storage and qty - please change that to "main storage" and "total qty".
1999	The purchase order 'XML Export' button does not export all information.
2080	Please add a 'jump to item in vessel database'-button in the inventory list.

Vessel Database

TICKET#	SUMMARY
391	Internal error when copying group (with subfolders, items, pictures) to a different domain.
1225	If you import a spreadsheet where one of the fields contain too many characters the import will run through without any error message but the corresponding items won't be imported. We need an error message if one of the items/components weren't imported and it would be great if there would be a log in place so you can see the reason for the problem - i.e. Import error due to field size of "ITEM ID".
1346	Problem with "Weight" field.
1587	Equipment import won't create storage location.
1812	Currently picture allow won't access .jpeg files - please add this file extension.
1847	Make it possible to attach external links, existing documents and uploads to components/items.
1871	Deletion of item will remove entries in item suppliers and item storages instead of marking them deleted.
1978	When printing the items of a storage they all have the same barcode.
2101	Change icon color to red when a component is critical.
2103	Deleting item subfolders or higher deletes entries in database instead of marking them deleted.
